- Increasing value of expression. Skills

Articulation

Expressing

Depicting

Reading

Grammar

Math

Unit 2

Chapter 3: Matrices

Chapter 4: Determinants

Unit 5

Chapter 12: Linear Programming Problems

Learning Objectives:

- Matrices can be used to compactly write and work with multiple linear equations
- Determinants can be used to give explicit formulas for the solution of a system of n equations in n unknowns, and for the inverse of an invertible matrix. They can also be used to give formulas for the area/volume of certain geometric figures.
- The objective of a linear programming problem will be to maximize or to minimize some numerical value under given restrictions

Skills

Identify

Create

Represent

Solve Apply

Compare

Computers (IP)

Topic: Data Handling (Using Pandas and Data Visualization with Practical)

Learning Objectives:

- Understanding the practical use of the concept.
- Understanding the Data Visualization on practical grounds.
- Application of the concept for results.

Skills

Observing

Predicting

Classifying

Practical

Physical Education (PE)

Unit 4: Physical Education and Sports for CWSN

Unit 5: Children and Women in Sports

Learning Objectives:

- Understanding the concept of disability and disorder.
- Understanding types of disabilities.
- Understanding types of disorder, its cause and nature.
- Learning the method of monitoring the development

Skills
