2. Analyse the impact of biomechanical factors on sports techniques and injury prevention.

INFORMATICS PRACTICES:

Computer chapter 2: Introduction to python

Learning objectives- basic structure of a program, starting with loops, data type, data file and database

HISTORY:

Theme - 2 An Empire across three continents

Theme - 3 Nomadic Empires

Learning Outcomes:

- Students will be able to
- Analyse the implications of Roman contacts with the empires of the subcontinent
- Identify the living patterns of nomadic pastoralist society

POLITICAL SCIENCE:

Indian Constitution at Work

Chapter - 2 Rights in the Indian Constitution

Chapter - 3 Election and Representation

Political Theory

Chapter - 1 Political Theory - An introduction

Chapter - 2 Freedom

Learning Outcomes:

- Students will be able to
- Analyse the working of the constitution in real life
- Identify different types and methods of elections
- Define the term Politics and identify various political principles.

GEOGRAPHY:

Book 1

Chapter- 1 India - Location

Chapter 2 - Structure and Physiography

Book 2

Chapter- 1 Geography as a Discipline

Chapter- 2 the origin and the evolution of the earth

Learning Outcomes:

Students will be able to describe the major physical divisions of India and explain how geological structure has influenced India's physiographic features

Students will be able to understand and explain various theories related to the origin of the Earth and describe the stages involved in its geological evolution.

CLASS 11th

Accountancy

Chapter 1 - Meaning and Objectives of Accounting

Chapter 2- Basic Accounting Terms

Learning outcomes

Upon completing this chapter, students should be able to:

Define Accounting: Understand what accounting is, often referred to as the "language of business," and its role in recording, classifying, summarizing, analyzing, and interpreting financial transactions.

- a. Identify the Objectives of Accounting: Explain the primary goals of accounting, which include:
- b. Maintaining systematic records of business transactions.
- c. Ascertaining profit or loss of the business during a specific period.
- d. Determining the financial position (assets, liabilities, and capital) of the business at a particular point in time.
- e. Providing relevant financial information to various stakeholders for decision-making.
- f. Assisting management in planning, controlling, and making informed decisions.

Business studies

Chapter 1-Nature and Purpose of Business:

Chapter 2- Forms of Business Organisations:

Learning outcomes

Upon completing Chapter 1, "Nature and Purpose of Business," students should be able to define business, distinguish it from profession and employment, understand its economic and social objectives, classify business activities into industry and commerce with their sub-types, and identify the nature and causes of business risks. Chapter 2, "Forms of Business Organisations," builds on this by enabling students to identify and differentiate between various forms of business organizations, including sole proprietorship, Hindu Undivided Family business, partnership, cooperative societies, and company (private, public, and One Person Company), explaining their respective features, merits, and limitations, and understanding the process and documents involved in company formation, ultimately guiding them in choosing the most suitable form for a given business.

Thanks and Regards,

CM- DEELIP KUMAR Class XI Commerce & Humanities
